Champ Software  
Nightingale Notes 33.0

To Drummond Group:

The Mandatory Disclosure statement of costs and limitations for our certified product(s) is attached to this letter and will be posted along with the required product information on our website here:

[https://www.champsoftware.com/benefits-and-features/mandatory\\_disclosure\\_statement](https://www.champsoftware.com/benefits-and-features/mandatory_disclosure_statement)

We agree to notify Drummond Group of any and all future changes to our transparency and disclosures language for this certified product-version.

We understand and agree that the ONC Health IT Certification Program Final Rule statement gives Drummond Group, as an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to divulge accurate transparency and disclosures information.

We understand and agree that we will provide to Drummond Group copies of or give access to any and all websites, marketing materials, communication statements, and other assertions made by your organization regarding the ONC certification status of this product in a reasonable time to ensure the transparency and disclosures information is being accurately disclosed.

Sincerely,

Nicole K Sowers

- Certifications: 170.315.f.1 and dependencies of 170.315.d.1, 170.315.d.2, 170.315.d.3, 170.315.d.7, 170.315.g.4, 170.315.g.5
- CQMs to which the product has been certified: none

### Costs and Limitations of Certified Health IT

Capability	Description of Capability	<b>Costs or Fees</b> <i>Types of costs or fees that a user may be required to pay to purchase, license, implement, maintain, upgrade, use, or otherwise enable and support the use of the implementation or use of the capability -OR- in connection with the data generated in the course using the capability</i>	<b>Contractual Limitations</b> <i>Limitations of a contractual nature (including developer policies and other business practices) that a user may encounter in the implementation or use of the capability -OR- in the connection with the data generated in the course of using the capability</i>	<b>Technical or Practical Limitations</b> <i>Limitations of a technical or practical nature that a user may encounter that could prevent or impair the successful implementation, configuration, maintenance, support or use of the capability -OR- prevent or limit the use, exchange or portability of any data generated in the course of using the capability</i>
Immunization Submission 170.315.f.1 and dependencies of 170.315.d.1, 170.315.d.2, 170.315.d.3, 170.315.d.7, 170.315.g.4, 170.315.g.5	The immunization integration allows bi-directional, real-time exchange of immunization records in states where Champ Software has an agreement with the state registry to submit this data. HL7 compliant data exchange is utilized for the data exchange.	There is no additional fee for utilizing the certified immunization registry integration beyond the normal SaaS and training costs built into the standard pricing packages.	Champ offers integration with state registries in MN, IA, ND, WI, IN, KS, and WA. No other state immunization integrations are available without management approval and technical development. Each state registry requires investigation and technical specifications complying with the state registry requirements.	Only functions supported by a state registry HL7 interface can be supported by Nightingale Notes. Some registries do not support the same functions through HL7 integrations as they do through direct data entry into the registry through an end-user interface. Nightingale Notes will only support the immunization data exchange that is also supported by the HL7 registry integration.
